

## Week Gone/Week Ahead Centre Academy London 10<sup>th</sup> May 2019

### Message from Miss Maddison:

This week has been another short week with the Bank Holiday on Monday. It will be a novelty next week to have a full week with all students at school, rather than on the residential!

Thank you to those parents who braved the rain yesterday to attend our talk on Cyber Safety. It is always good to better understand the difficulties of ensuring our young people are safe online and we hope we were able to provide some practical tips to help. If any parents/carers would like the slides from yesterday's talk, please can you contact the School Office who can send these through.

Alternatively, practical information and tips can be obtained from National Online Safety, with whom we have a partnership. A separate letter is included with this newsletter with more information.

Next week the GCSE exam series starts. We know that this is a stressful time of year, not only for students who are taking exams, but for all our students - who have to contend with the room changes that are needed to accommodate the exams. I know that you will all join me in wishing our GCSE cohort the best as they begin their final preparation.

Looking further ahead, a reminder that half term this year is from 27<sup>th</sup> - 31<sup>st</sup> May.

I hope that you all have an enjoyable weekend and I look forward to seeing everyone back on Monday for the last two weeks of the half term.

Miss Maddison

### BABY ON BOARD

As some of you may have been informed by your son/daughter our wonderful Occupational Therapist Mrs Riveria is expecting her first baby.

All students were informed during last week's assembly, which of course ended with a big round of applause from all and many congratulations have been sent Mrs Riveria's way!

Our Winning House Group this week is

*EFFRA*

well done to everyone for all their hard work this week!

This week in Film Club our students were watching the 'The boy who made in a windmill in Africa'. This movie is based on the true story of Malawian Kamkwamba, who saved his town from famine by building windmills that would provide water and electricity to all. This particular movie was very important to our students who are passionate about recycling and making a conscious effort to help save the planet. The students are always looking for new ways to make a difference, something we are extremely proud of and fully support.

**-REDUCE**

**-REUSE**

**-RECYCLE**

### **This Week's Reminders:**

Please take the time to complete the online cyber safety training programme. As a school we are very aware of the amount of time our students spend online and the unwanted risks and dangers our students may be exposed to. We appreciate all parents and carers support in this matter.

As mentioned above, we take recycling extremely seriously in the school and so we would like to take the opportunity to again remind all students to bring a reusable bottle to school with them, plastic cups are no longer being provided in the office.

Please ensure your student is in their full uniform at all times, we have noticed a number of students coming to school without their ties or wearing the wrong shoes, shirts loose etc. As a student of CA London, we remind all students that they represent the school when out in the community.
